

## **2018-19 Race Championship Series**

### **Formula 1600 Championship Championship Amendment - Technical (Schedule F)**

*This amendment is issued under the provisions of the MotorSport NZ National Sporting Code Article 18(2) in confirmation that the following amendments, notices or points of clarification have been authorised to the text of the Supplementary Regulation of the above named event. It is recommended that in addition to retaining a copy of this bulletin all parties modify the text of the regulations according to the following:*

---

#### **Championship Amendment**

##### **1. Clarification to Article 14.1 as stated in the schedule below.**

---

##### **1. Item One:**

##### **F1600 Engine Block Clarification**

A re-production Kent 1600 engine block has become available and is in use in New Zealand. Investigation shows that the block is produced by Ford Performance Parts to exact Ford Kent 1600GT dimensions and is used widely alongside original production blocks in Formula Ford racing in the USA. The block carries the casting numbers "711M 6015BA" and as such complies with Schedule F Article 14.1

South Island Formula Ford Association Committee have considered the use of the block under Schedule Z and are in agreement that the block meets the requirements for use under this Schedule.

MotorSport NZ endorse the South Island Formula Ford Committee's decision to accept the re-production block under the provisions of Schedule F Article 14.1.

MotorSport NZ confirm that the re-production Ford Kent 1600 block as produced by Ford Performance Parts only, is acceptable for use under Schedule F.

##### **Reason:**

*To clarify the use of a re-production engine block under Schedule F.*
